## WAR RATION BOARD COLUMN

### GASOLINE STILL CRITICAL

Announcing that powering the Pacific War will take 8,400,000 more gallons of petroleum products daily at its peak than is being used today, W. E. Holcomb, OPA District Director said, "It would take but 1,000,000 gallons of gasoline daily to power the cars on the nation's roads today if gasoline rationing should be dropped. This means that our increased use in the Pacific is taking 8 1/2 times more every day than what we would use to power non-automobile driving in America."

The Director pointed out that most local dealers had a great run on gasoline recently when the basic allotments were up. Much of this was asked for by people who did not need it, but who had the mistaken idea that the gasoline crisis was passed.

"Come look at the figures I have mentioned should convince anyone why we still must be careful," Holcomb said.

### CIGAR MANUFACTURERS SUE

Backing to the famous words of Vice-President Marshall, OPA District Director, Major W. E. Holcomb in Jackson, announced that suit has been filed against eleven Tampa, Florida cigar makers demanding almost \$2,000,000 in damages and asking injunctions to restrain future price violations.

In an effort to put low priced cigars back on the counters, Holcomb said OPA is just beginning this campaign. Further violations are continuing and will be dealt with in kind.

He charged that manufacturers have been concentrating on the high priced cigars despite steps taken by OPA to stop this practice. "Last November the agency increased the ceiling prices for lower cost brands and required that manufacturers establish an average retail selling price so cheap cigars would be restored to the nation," Holcomb said. Court action will soon be taken against other manufacturers in other areas guilty of similar violations, it was asserted.

A brother, Cpl. Cedric Heitzmann is now in the Pacific.

### Gives Review

A large number was out Tuesday morning to hear Mrs. Benjamin Yancey review Irwin Stones' very popular book "Immortal Wife."

The book is strictly a historical novel and Mrs. Yancey took her audience through the periods of the early history of California, the Gold Rush days, the Civil War showing the character of Mrs. Fremont wife of the Fremonts of pioneer days, standing the test of immortal life under all circumstances. One found the Fremonts rich in the world's goods in one period and beggarly poor at another and still the wife meeting each condition in the best way for her husband.

A very gratifying sum was netted for the book fund of the library.

### Canteen Comments

Walter H. Phillips, U. S. N., Boston, Mass., had his name drawn on Sunday at the canteen and he will have the privilege of talking to his home and this will be paid for out of the Canteen Fund. Who wants to contribute to the fund? Wouldn't you like someone to make it possible for your son to talk to you from some far-away city. The canteen hopes to have its own telephone soon.

A work of talent was discovered among the friends of the canteen and a small group enjoyed a song fest last Saturday night. A good imitation of Donald Duck was discovered and real vocalists too. Of course it is to be admitted that when youth, especially when in uniform, meet and there is a moon over the water they find voice for expression of sentiment and song. For verification of this see Lucy.

The canteen enjoyed a visit from Rev. J. T. Dearing on Saturday afternoon which the boys appreciated.

### Loses Brother In Law

Mr. and Mrs. Joseph Kern were called to New Orleans on Saturday of last week because of the death of Mr. Kern's brother-in-law, Moise Kahn who died suddenly that day. The funeral was held in New Orleans and the Kern store here remained closed all day.

Mr. and Mrs. Kahn spent a few days here with the Kerns shortly before the death of Mr. Kahn. They have visited here often since Mr. and Mrs. Kern have made their home here and there are many of his friends here who regret his death.

### WHY IS CHURCH PROPERTY DESTROYED?

WHEN the mania for destroying property overcomes an individual he certainly should not choose to destroy church property.

For the second time the sign in front of the Episcopal Church, on which is set out the time of their services, has been torn down, and on last Sunday night an intruder entered the Chapel of St. Augustine Seminary and played havoc.

It is not known who may have destroyed the sign at the Episcopal Church, but it is known that a drunk Soldier entered the Chapel at the Seminary, breaking a window to get in and once inside set fire to the curtain overhanging the confessional. Trying to get out he broke the glass in another window and broke the vigil light stand which he tried to use as a stool. After his escape in the Chapel he entered the office of one of the priests and the priest not knowing that he had been in the Chapel and having cut his leg there offered the boy assistance. He showed him to the bath room and suggested that he wash his wound. He started back to his office and the boy probably thinking that he would be turned over to the police, broke a window in the bath room and escaped. He later entered the room of one of the priests at the Major Seminary Building. He was drenched from head to feet, presumably he fell in the creek on the Seminary grounds. We understand that he was taken to the bus station by one of the priests and left there and later was found on the highway by some Army officers who turned him over to the military police.

This boy we understand was about 19 years of age, and full of liquor. We understand the quart bottle containing a small amount of whiskey, was found outside of the Chapel at the Seminary. We also understand that this boy was seen on the beach earlier in the evening with a quart of liquor in his hands and his companion had a bottle of coca cola. It was our impression that the barrooms in Bay St. Louis were supposed to be closed on Sunday and that hard liquor in excess was not to be sold to service men.

These perhaps are some of the reasons why the church signs and other church property are destroyed. Apparently a word to the wise is not sufficient. It may be time for some of our law enforcement officers to move.

### LOCAL EMPLOYEES OF TELEPHONE COMPANY PRESENTED SERVICE PINS

MRS. T. L. JAMES

At a luncheon at the Edgewater Gulf Hotel, attended by employees of the Southern Bell Telephone Company, from Gulfport, Biloxi, Pascagoula, Ocean Springs, Pass Christian and Bay St. Louis, and by Mr. P. H. Beger, District Traffic Manager, Hattiesburg; Mr. L. O. Foldwell, Mississippi Traffic Manager, Jackson; Mr. William Baker, Traffic Manager, Gulfport; and Mr. Dabney, Local Manager of Biloxi, presentation of service pins were made to the manager, supervisor and one of the operators of the Bay St. Louis Telephone office who was on sick leave and who has retired.

Mrs. T. L. James, Manager of the Local Office was presented her service pin with five stars and Pioneer insignia, which represents twenty-five years service. For the last fifteen years Mrs. James has been in charge of the local office.

Mrs. W. B. Graham, Supervisor of the Bay St. Louis office was presented her service pin representing twenty years, and Mrs. Florence Ansley, who has served both in the Bay St. Louis office and the Gulfport office received her service pin with five diamonds, and her retirement certificate, having completed 26 years of service. For the past year Mrs. Ansley has been on the sick leave. She was presented a farewell gift by the girls of the local office. The presentation was made by Mrs. James.

In speaking to Mrs. James she expressed a wish that we should convey to the people of Hancock County, her sincere thanks to them for the splendid cooperation and courteous treatment she and her fellow workers received from them, especially in these trying times when traffic is so very heavy.

We feel that we would be derelict in our duty if we did not add a few words of praise for the great job that these splendid young women are doing. One need only travel to other cities and attempt to get calls through, and how much they do appreciate the operators of the Bay St. Louis office. They exert every effort to render a real service to the patrons of their company. They appreciate the opportunity to serve. They are the most pleasant, courteous and affable group of girls that we have had the pleasure of hearing call "number" as yet. Theirs is a job that is hard. They come in contact with every type of person, the reasonable the unreasonable, the snooty, the catty, and in many instances their feelings are hurt by some unthinking person who does not realize just how hard the job these girls are doing, really is, and what patience a telephone operator must have. So in these days when you do not get as quick a service as you would like to have, realize that there is a reason for it. That the lines are congested, but that you have the best operators anywhere, and they are trying their best to render you good service.

Mrs. James and Mrs. Graham have a splendid personnel in their office and they are to be congratulated.

### Library Notes

It is the custom of the library that when a person, in Bay St. Louis or in any other part of the county for a short stay to require a deposit of \$1, and this is always refunded when the person leaves.

Recently Mrs. Semmes Luckett of Clarksdale who deposited \$2 for herself and son while they were at the Hotel and when she left she refused to take the refund and said that she was leaving that because the library had meant so much to them while here.

Miss Crawford wrote them and thanked them for this generous donation and this is Mr. Luckett's reply: "Dear Miss Crawford: We wish to thank you for your letter of July 17 to Mrs. Luckett and for the many courtesies extended to us and our children while we were in Bay St. Louis. The books we got from you made many an hour pleasant which would otherwise have been wasted."

We have an excellent library here in Clarksdale which we consider to be the finest asset of this town. It means a great deal to us and will do doubt add greatly to the education of our children. It has recently published a pamphlet which I enclose herewith. I am sure you will find it interesting."

Very truly yours  
Samuel Luckett

### WAS CLASSMATE OF SUZUKI

The Oxford Eagle of June 28 had an interesting article based on a statement by Senator H. T. Smith of Lafayette County, recalling his college days at Nashville Law School. Noting that the emperor of Japan had appointed Kantoro Suzuki as Premier of that country, Mr. Smith remembered that particular Jap as a classmate in the law school at Nashville. Senator Smith recalls conversations he had with Suzuki while in college with him. Suzuki told Senator Smith that he was not studying law with the view of practicing the profession but that his purpose was to prepare himself for holding high office in Japan. It seems that Suzuki was getting the "American point of view" while pursuing the study of law and he related to Mr. Smith that Japan had students at all times in the leading colleges in the United States. Senator Smith fully identified Suzuki from pictures and scrapbooks which he had kept.

### "I'LL BE SEEING YOU" AT A. & G. THEATRE SUNDAY & MONDAY

#### New Film Has Theme Of Compelling Appeal

Based on the timeless theme enveloping the rebirth of hope and the recapturing of lost dreams through a great love, "I'll Be Seeing You," the Selznick-International picture produced by Dore Schary, will be at the A. & G. Theatre Sunday and Monday, and is one of the most poignant and dramatic films which has come our way in many moons. It has a nostalgic tenderness that touches the delicate strings of those human emotions that we hold in the secret places of our hearts. It has, also, a vigorous quality, this vigor providing a balance that makes a finely blended whole.

The cast is a splendid one, with each member perfectly attuned to the sensitive structure of the story. There are Ginger Rogers, and Joseph Cotten, exceptionally well-matched as the pair of bewildered lovers around whom the story is woven. Shirley Temple, in her first grown-up role, is charming and provocative and gives every indication as an actress. For a nice change we have

Spring Byington in a same role, that of Shirley's mother, and Ginger's aunt. Tom Tully, as the father and uncle, completes this convincing group.

The story opens with Miss Rogers, as Mary Marshall, taking the train to spend the Christmas holidays with her aunt (Spring Byington) and uncle (Tom Tully) in Pinehill. William Dieterle did a skillful job of directing this fine picture. It is a United Artists release.

# THE PURSUIT OF HAPPINESS

"We hold these truths to be self-evident—that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty and the pursuit of happiness."

Thus in the days of the birth of the Republic our founding fathers proclaimed their faith in freedom and happiness, and life became more worthwhile on this continent.

A people can neither enjoy liberty nor pursue happiness without their independence, an independence spiritual and economic. Freedom to act, to give full expression to one's ability and effort is essential to individual progress and collective prosperity.

There is no happiness as satisfactory as that which comes to the self-made man — one who started from scratch and carved out a career with willing hands, created his own security through sacrifice and frugality. Spendthrifts are neither free nor long happy.

The heroism of the American soldier, the persistent plugging of ambitious youth to get along, these are

born of the fighting spirit of our freedom-loving forefathers.

We are the envy of peoples everywhere because we are of such solid, sterling stuff. And we need not fear the future as long as we stick to our traditional American virtues and ideals. Peace will come as another golden opportunity to those who are realistic.

Are you prepared for it—making each day count—laying by a goodly portion of your money, that financial independence may be your well-earned lot? If in the pursuit of happiness, join that increasing throng of thrifty ones who build their economic freedom and plan a brighter future through this growing bank.

We are grateful to you for your splendid cooperation and the increasing business that comes from new and old customers. If you have not done it, open a savings account without delay and resolve to add to it. Let us help you find financial freedom — as we join in the pursuit of happiness and together build for a better and more prosperous community.

## HIGHWAY TO VICTORY

Only where Natural Gas is needed for the war effort can pipe lines be built today. And even with all the modern equipment at hand, the job is still one for pioneers. . . . Before the actual laying of pipe, our construction crews must prepare the "highway," better known as the right-of-way, through remote swamps and marshlands, through cultivated fields, and woods, under highways, railroads and streams. In some cases they must dig canals or dynamite out large roots or pieces of rock to clear the way for the actual construction. These men are truly soldiers on the home front. . . . Always the work of these valiant gangs is hard and hazardous but they carry on, day in and day out, doing their part willingly in their country's struggle for victory.

## Selective Service News

Jackson, Miss.—Men under 30 years of age who are physically acceptable to the armed forces, including many of those heretofore classed as "indispensable and irreplaceable," can no longer be given a deferred Selective Service Status, it was announced today by Colonel L. W. Long, State Director of Selective Service.

With the return of 3000 Mississippi veterans monthly—and even greater numbers expected in August—and the cut-backs in war contracts and production in the state, it is apparent, in his opinion, that the phrase "indispensable and irreplaceable" could not accurately be sworn to by any employer at this time in requesting deferred classifications for employees, the state director declared.

Many well-trained and experienced men are being discharged from the armed forces each day who need and want the jobs which other young physically fit men have held for the past four and a half years, Colonel Long said.

Calls for men by the armed forces are for those between the age of 18 and 38 with emphasis on the fact that the man under 30 is desired in all instances. Local boards are attempting to give the armed forces men in this group and 90 percent of those currently being inducted are under 30.

In clarifying the position of physically fit men under 30, Colonel Long said only the following could qualify for a deferred classification:

(1) those who can qualify as "indispensable and irreplaceable" to essential war work, (2) those proving to the local boards that destitution and privation would result to their dependents if they were inducted (3) ministers (4) certain elected public officials (5) certain aliens (6) certain conscientious objectors (7) and veterans who have completed their service in the armed forces.

# A New "House of Magic" for Postwar America

"...one of the strongest guarantees of progress and world peace is continuous scientific preparedness through industrial research."

General Electric has approved plans for a new \$8,000,000 Research Laboratory. This expenditure has tremendous significance. Scientific research has contributed much to our progress as a nation.

Many things have been discovered during this war, and we can and must develop them into better things for peacetime.

"Today we have 550 research people on our staff. These new facilities will not only give increased outlet for their abilities, but will provide opportunities for new research minds with new talents.

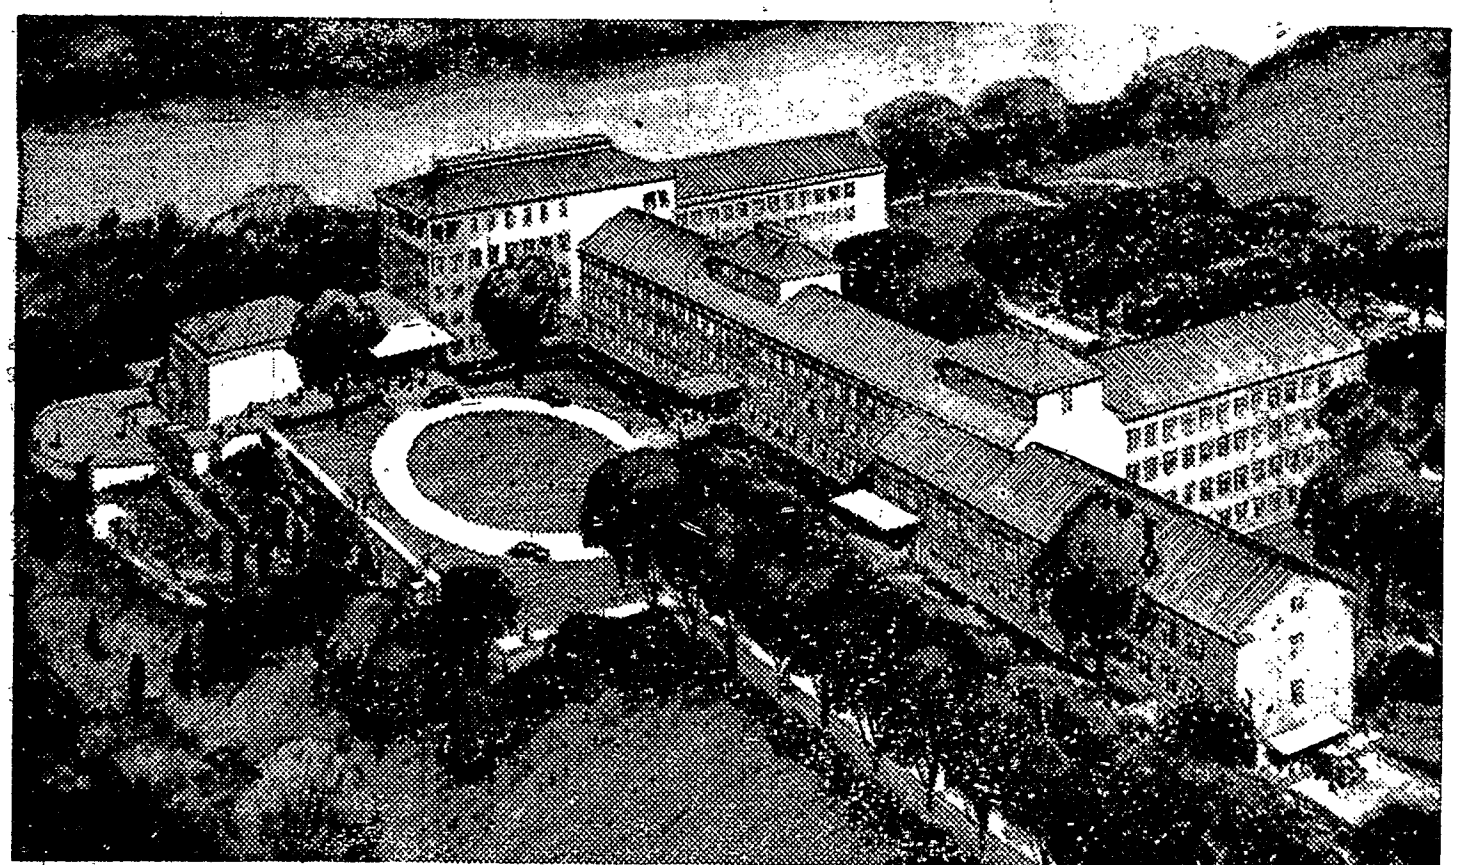

"From this new laboratory we think new achievements will come. In the past, G-E research has contributed much to better living in America—not only through new developments in x-ray,

electricity, metallurgy, electronics and chemistry, but also through reduced cost and increased efficiency, as in the modern incandescent lamp.

"Even more than in the past the laboratory will emphasize research in pure science—continuing and expanding the work begun by Dr. Whitney and the late Dr. Steinmetz forty-five years ago.

"To find new facts of the physical world, to extend the limits of knowledge, is a forward step in creating More Goods for More People at Less Cost."

GENERAL ELECTRIC COMPANY

New \$8-million-dollar G-E Research Laboratory will be built five miles east of Schenectady, New York, on the Mohawk River. The geographic location offers special advantages for television, high voltage x-ray, and radar research. Buildings with 300,000 square feet of floor space will accommodate an expanded post-war research staff of about 800. Research rooms will be a scientist's paradise of equipment for experiments in chemistry, physics, mechanics, electronics. It is hoped that construction can start in six months.

## Planning for TELEPHONE PROGRESS in Rural DIXIE

To keep step with farm progress and to extend service to more farm families, the telephone industry is working on important new devices and methods.

Plans are already under way for resuming our rural telephone expansion program which was suspended in 1942 when equipment and materials became more urgently needed for the armed forces. Surveys are being made to determine the needs and to provide the facts from which we can carry out plans for expansion of farm telephone service in the South.

The goal is to bring the telephone to the greatest possible number of farm families.

There is nothing complicated about the work of this Committee. It is a down-to-earth program with one objective—that beer be sold only by responsible businessmen in respectable places in full accordance with the law.

This Committee holds regular meetings with the civic and business leaders, municipal and county officials, and with law enforcement authorities. Local conditions are discussed and the facilities of this Committee are made available to every community in which the sale of beer is legal.

Through full cooperation with the Beer Division of the State Tax Commission, with these local groups and with retail beer dealers themselves, this Committee is constantly contributing to the maintenance of good retail outlet conditions in communities where the sale of beer is legal so that this beverage of moderation may be enjoyed in a wholesome atmosphere.

### Even the Lightest Allowance Should Provide for a Savings Account

Under the strain of wartime living, it is very easy to forget the basic principles of thrift. For too often, this important lesson is overlooked in the education of children between the ages of 10 and 16. The simplest way to get across to them the importance of saving is to open a savings account for each child. The initial deposit need not be large. Regular deposits may be light, but they should be made at regular intervals. A dollar will start your children on the road to thrift.

## Down to Earth

There is nothing complicated about the work of this Committee. It is a down-to-earth program with one objective—that beer be sold only by responsible businessmen in respectable places in full accordance with the law.

This Committee holds regular meetings with the civic and business leaders, municipal and county officials, and with law enforcement authorities. Local conditions are discussed and the facilities of this Committee are made available to every community in which the sale of beer is legal.

Through full cooperation with the Beer Division of the State Tax Commission, with these local groups and with retail beer dealers themselves, this Committee is constantly contributing to the maintenance of good retail outlet conditions in communities where the sale of beer is legal so that this beverage of moderation may be enjoyed in a wholesome atmosphere.

How women and girls may get wanted relief from functional periodic pain

Cardui, many women say, has brought relief from the cramp-like aches and nervous strains of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "rime" to come. Started 3 days before "your time," it should help relieve pain due to purely functional periodic causes. Try it!
